DR. Kaysen:—Ms wife has been afficted with a bad sough and difficulty of breathing, for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her oast, I produced some of your Pecteral Cough Syrup. I hought, the first time, a fifty ocut bottle, which relieved her very much; I then called and git a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a celdand cough. The medicine cared me by taxing one done I express my entire sati-faction with the medicine, and you are at liberty to publish this if you dealer to do so.

COM. PRATT AND DE. KEYSER'S PROTORAL SYRUP -Dm. Keysen-Dear Sir. Excuse the delay of my asknowledging the excellence of your Pectoral Gough Syrup scoper. I take great pleasure in issing that it is all you say it is. It knocked the noise out of my cough and the worst one I was ever afflicted with I have not use i more than one-baif of the tottle, and I can and do wish that all who are afflicted would give it as far a trial as I have done, and they will be proud to say. It is no quack modified to I would not suffer another such an attack for any consideration, or at any cost. I am confident I can breather more freely than I ever did I shall always acknowledge a dett of gratitude for inventing so axcellent a remedy. You are at liberty to use my name in this regard, as you think proper. M. F. PRATT.

ments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarries, a pain in the slife, or a headache, or hoarsecors, at their commencement, simple and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fall to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take-pleasant, so as to cause no repugnance—eafe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being this sery is use, this most further and private persons, as being this sery is use, the word further and certainty. The most further are success at the control of the country, with almost invariable success. All speak in the highest terms of their implicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers, at their control of the country, with almost invariable success. If Headache is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and, viewed in this light, it may be looked on as a safeguard intended to give notice of disease which might etherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two manes, viz: Symptomatic and Idopathic. Symptomate manes, viz: Symptomatic and Idopathic. Symptomate Headaches is exceedingly common, and is the precursor of a great variety of diseases. among which are Appeared, and all fabrile diseases. In its nervous form it is sympathetic of disease of the stomach, constituting bildous headache, of worms, constituting bildous headache, of worms, constituting bildous headaches, of worms, constituting bildous headaches, of worms, constituting bildous headaches; anasmia and plethors are also affections. Constipation or Costiveness.

No one of the "many ills that fiesh is hair to" is so prevalent, so little understood, and so much argleoted as Costiveness, often originating in carelassess, or sedentary habits. It is regarded as a slight disorder, of to little consequence to excite anxiety, while in reality it is the precarsor and companion of many of the most fatal and dangerous diseases, and unless early erad cated, it will bring the sufferer to an untimely grave. Among the lighter vits of which Costiveness is the usual attendant are Headache, Colle, Rheumatism, Foal Breach, Piles, and others of like nature, while a long train of frightful diseases, such as Malignant Fevers, Abcesses, Dysentery, Diarrhoss, Dyspoysis, Apoplexy, Epilepsy, Paralysis, Hysteria, and Innanity, first indicate their presence in the system by this slarming symptom. Not unfrequently the diseases named originate in Constipation, but trace on an independent existence unless the cause is eradicated in an early stage. From all these considerations, it follows that the disorder should receive immediate attention wheneverit occurs, and no person should neglect to get a box of Cephalic Fills on the first appearance of the complaint, as their timely use will expet the insidious approaches of disease, and destroy this dangerous foe to human life.

Twenty Millions of bothes of his celebrated Prepared Gine, and it is estimated that each bothle says at least ten doltars' worth of broken furniture, thus making an aggregate of twenty millions of doltars recialming from total loss by this valuable invention. Having make his Gine a household word, he now proposes to do the world still greater service by curing all the soling heads with his Cephalic Pills, and if they are as good as the Gine. Heacaches will soon vanish away like snow in July.

ILFOVER EXCITABENT, and the mental case and anxiety incident to close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this distressing complaint, les want blow to sail energy and ambition. Sufferers by this disorder can always obtain speedy relief from those distressing attacks by using one of the Caphalic Fills whenever the symptoms appear. It quiets the overtasked brain, and soother the strained and larring nerves, and relaxes, the tension of the stomach which always atcompanies and aggravates the disordered condition of the brain.
